

Mukesh Narayan Sankhe

Offering over 22 Years of Experience in:
PRODUCTION – Manufacturing, Planning & Supply chain Management

Mobile: +91 9545240120 ~ **E-Mail:** mukeshnsankhe@gmail.com

Profile Summary

- **Evolved strategies for implementing production & manufacturing processes** to curb machine breakdowns, reduce rejection rate, realize operational efficiencies, control variability, costs as well as reduce the cycle-time; managed a team and guided staff members to address and resolve performance bottlenecks
- Expert in **Raw material planning to finish wire production in SS & MS**
- Estimated the amount of material, equipment, and labour required for production; promptly addressed and resolved production issues to minimize delays in production
- Strong working skills in applying TPM & 5s Quality Management Tools
- Coordinated production operations in accordance with material, labour, and equipment availability; recommended viable solutions to reduce production costs as well as improve production processes and product quality
- Exhibited a strong and firm approach to sustain and encourage safe work environment and capabilities to streamline operations; applied continuous improvement principles to increase process & production efficiency and company profits
- Managed brownfield expansions to take improved capacity, new products introductions, re-engineering of existing processes and bringing in of new technologies that got supported with implementation of pay for performance schemes among blue collared employees with productivity, quality and efficiency linkage
- Expertise in reversing engineering finalization of product & assembly drawing with technical specification
- Managed process inspection of product during production & preparation of in process inspection check sheet, first five-piece approval, PDI reports; monitoring In-process & outward component's quality
- Rich experience with impressive success in improving supplier performance through structured supplier quality improvement programs involving supplier stratification, supplier audits, supplier performance monitoring & improvement and relationship management

Core Competencies

Production Operations & Maintenance # Raw Material planning as per customer specification & end product # Dispatch & Delivery Management # In-process & Final Inspection # TPM / 5s # Cost Reduction # Equipment / Breakdown Maintenance # Supplier Quality Improvement # SOP Formulation / Process Enhancement # Reports & Documentation # SAP PP module # SAP PR for packing & production consumables # Root Cause Analysis # Team Building & Leadership

Knowledge Purview (Process / Technical)

Planning & Manufacturing process for Thick, Medium, Fine, MIG & TIG wire, Core wire

- Handling customer enquiries with sales & Quality
- Delivery time as per process booking
- Grade confirmation as per customer requirement
- Raw Material planning
- Process & product planning
- Machine scheduling
- Packing as per customer specification
- Dispatch scheduling with logistic team

Wire Drawing Process and Quality:

- Chemical and Physical Properties and Testing of Stainless Steel Wires
- Stainless Steel Wire Drawing Processes like:
  - Inspection Input Raw Material
  - Pickling & Cleaning
  - Coating (Inline & Batch)
  - Wire Drawing Process (Die-drafting, Machine Conditions and Breakdown Rectifications)
    Spectro Analysis by Spectrometer and by NITON mini spectro alyzer

Inline Inspections during the Drawing Process:

- Size Control
- Surface Conditions
- Casting of Wire Rings

- Helix of Wire Coils
- UTS Testing
- Torsion Testing
- Exposure in quality concerned about wires of different conditions

Furnace:
- Strand Annealing (Tube Annealing) in Furnace and Ammonia Cracker

Key Skills:
- SAP S4 HANA & SAP ECC-PP Module (END USER)
- MS-Excel, Production & Operational MIS report
- Stock Audit, Stock Reports
- ABP Production
- Plant Operational Activity

Organizational Experience

Since April 2012: Viraj Profiles Pvt. Ltd., Boisar (Maharashtra) as Senior Manager – Production & Planning
Growth Path: Joined as Junior Manager and rose to the post of Senior Manager
May 2005 to July 2010- Viraj Profiles Pvt. Ltd., Boisar (Maharashtra) as Production shift in charge

July 2010 to Apr 2012: TATA Steel Wire division Tarapur as Associate shift in charge

Viraj Group of Industries is the Manufactures and Exporters of Stainless Steel products like Stainless Steel Wire Rod, Wire, Angle, Flat, Flanges, Round Bars, Bright Bar, Fasteners, Channels, Billets etc

Wire Division has a manufacturing capacity of SS Wire and Fine wires of 84,000 MT pa

The Company Has Wire rod rolling Mill, Batch Annealing Furnaces and Wire Drawing Machines & Strand annealing Furnaces as its core machinery infrastructure

Wire Division covers almost all types of SS wire in size range from 0.09 to 20.00 mm in diameter.

Condition of wire: - Bright EPQ Quality, Spring Wire, Nail Wire, Coated Wire, Matt Soft Wire, Greased & Degreased Wire, Wire for Fastners, TIG & MIG, Core wire for electrode, Bright Bar (GR product from 2.00 to 4.50 MM in 3 to 6 Meter length)

Grades: - 200 Series, 400 Series, 300 Series, Moly Grades, 310 Series, Duplex Grades, Electrode grades, ER grades

Role:
- Managing Monthly, Weekly Production plan with coordinating with Marketing Department
- Planning of Raw material requirement to supplying plant (Wire rod mill)
- Preparation of Daily Production plan for the Dry drawing, Wet wire drawing, Annealing & Pickling
- Coordinating with MMD, EMD, QAD, & Die shop Department for smooth working of plant
- Process Routing & BOM of new order with respect to customer required specification
- Conducting a periodic audit of production WIP and ensure set targets are achieving
- Implementing upgraded inventory management process, change control, policies and procedures to meet budget mandate criteria
- Managing facility optimization projects, equipment modifications, and predictive maintenance
- Creating and maintaining ISO procedures
- Administering all activities pertaining to delivery management which includes meeting safety, quality, customer service and financial deliveries
- Facilitating technology solutions to enhance energy efficiency & productivity
- Devising expansion and investment plans for the unit/ organization
- Re-designing operational processes for dramatic improvements and eliminate waste in the processes
- Leading:
  - Production planning and execution to meet customer requirements on time
  - Proper deployment of manpower as per their skill level to obtain maximum output
- Ensuring the deployment of multi-skilled operators as per respective domain & working area
- Achieving monthly production targets with optimum utilization of available resources
- Administered documentation & requirements for implementation of the quality systems
- Imparted training and coaching to associates to ensure good integration and understanding of food safety and quality systems
- Interacted with other departments (Engineering, Safety, Quality, Supply Chain) to achieve smooth plant operations
- Planned the shift production activities to ensure safety of machine & employees during working hours
- Monitored product non-conformance to ensure correct handling, stock status
- Developing a **sourcing framework** to analyze demands patterns, identifying short & long-term requirements for price sensitive articles in each category and supervising the implementation of the same
- **Assessing the performance of the vendors** based on **various criterions like manufacturing capability**, quality system, rejection levels, **timely dispatch & delivery**, credit terms and so on
- Streamlining the system & procedures for **effective material control** towards ensuring a ready availability of materials; implementing systems for avoiding situations like **over-stocking/out-of-stock**

- **Leading the implementation of processes to reduce input costs** by ordering components based on annual forecasts to take advantage of economies of scale
- Streamlining the **system & procedures for effective material control** for ensuring a ready availability of materials
- **Implementing systems for enhancing operational efficiency**; designing strategies for products, thus saving cost and revenue
- Executing **structured process for negotiation and contract management** to ensure strong and local supply base
- Building effective customer relationship in order to control customer returns (Rejects) and warranty settlements, zone return material clearance

Tata Steel (Wire Division)

Worked as Associate from 19th July 2010 to 15th April 2012.

Tata steel, wire division is largest steel manufacture of high quality steel wires in India since 1958. Wire plants are equipped with modern wire drawing machines, heat treatment furnaces, galvanizing & coating facilities. Tata steel, wire division covers almost all types of steel wires in size range from 0.2 mm to 27.0 mm in dia. in coated and uncoated form, catering to variety of application such as Auto bead wire, spring steel wire, and prestressed concrete wire.

Professional Roles:

- Working in Production department as Shift Incharge.
- Planning of production line - bead wire, spring wire & pcsr wire.
- Raw material planning as per plan received from marketing department.
- Manpower allocation on wire drawing, patenting furnace, coating line.
- Coordination with MMD, EMD & Die shop department for smooth functioning.

Education

Bachelor of Engineering in Production Engineering in 2003 from Mumbai University

Diploma in Production Technology in 1998 from Maharashtra Board

PG Diploma in Management (PGDIM) from IGNOU Delhi

Internal QMS Auditor (ISO 9001: 2000) I have successfully completed the Internal QMS Auditor Training Course conducted by TQMI

Quality Management System: Assisting Manager QMS & EMS in initiating and documenting line manuals for entire wire division for the Quality and Environmental Management System. This has reduced the overall job of maintaining hard copies and paper cost. Training programme attended on general awareness on Environmental Management System.

IT Preview

- Well versed with SAP (PP Module) (Systems Applications and Products in Data Processing)
- Well versed with Microsoft Office (Excel/Power-point/Word/Outlook)
- Production schedule preparation through demand management

Personal Details

Date of Birth:	2nd May 1979
Languages Known:	English, Marathi & Hindi
Marital Status:	Married
Address:	Ajitnath Apartment, B-105, Ostwal Empire Boisar Tal & Dist Palghar Maharashtra 401501
